Subject: Request for information

I would like to know of the 210 families who wish to return to Galveston to live and were living here before, the list you have of their bedroom requirements:

How many need 1 bedroom, 2 bedrooms, 3 bedrooms... (were there any larger numbers before?). I would assume this might be based on what they needed before and perhaps they have more children or less now, and you may not know that.

This information is for some of us (no organization) to mull over in thinking about what is needed. Thanks.
